

ONLINE COURSE
REGISTRATION
SYSTEM:
INTO THE FUTURE!

OVERVIEW

The OCRS allows students to register, enroll in courses, and manage profiles.

Key stakeholders: Students, Staff, Administrators.

Developed by: ImmortaLinks

Purpose: Seamless and automated course registration system

SRS DOCUMENT PURPOSE

Outlines objectives and functionality

Defines requirements

Minimizes risk and increases success!

UML DESIGN

- **Class Diagram:** Shows relationships between key system classes (Student, Course, Administrator).
- **Use Case Diagram:** Visualizes interactions between users and system functions.
- **Sequence Diagram:** Depicts how students enroll in courses step by step.

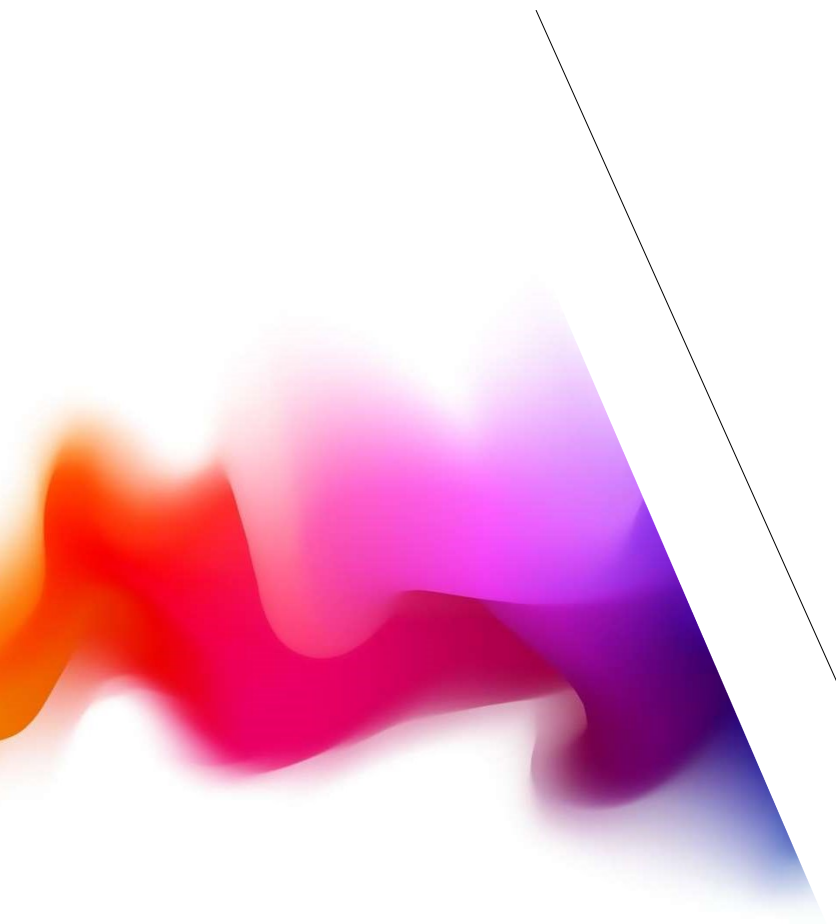

OCRS: LIVE PRESENTATION!

- Login Page
- Enrollment Page
- Profile Management

MYSQL DATABASE

Backbone of the system
Stores and manages data
Manages capacity
